

OXYGEN CONCENTRATOR **NUVO LITE MARK 5**

EDITION 1/2015

The Nuvo lite provides oxygen to patients that require Long Term Oxygen Therapy (LTOT) in the comfort of their home.

Nuvo lite is a compact and light stationary oxygen concentrator, that uses standard PSA technology to provide oxygen flow of up to 5 litres per minute. The Nuvo lite oxygen concentrator separates the oxygen from other gases in the air and delivers the oxygen at high concentration to the patient.

The Nuvo lite has an integrated oxygen sensing device for monitoring oxygen levels, and a 'No-Flow' alarm to alert the patient if there is no supply of oxygen.

FEATURES

- Lightweight - a mere 14.5 kg
- Sleek compact cabinet design with handle
- Lockable flow control valve
- Adjustable flow rate up to 5 litres per minute
- Quiet operation

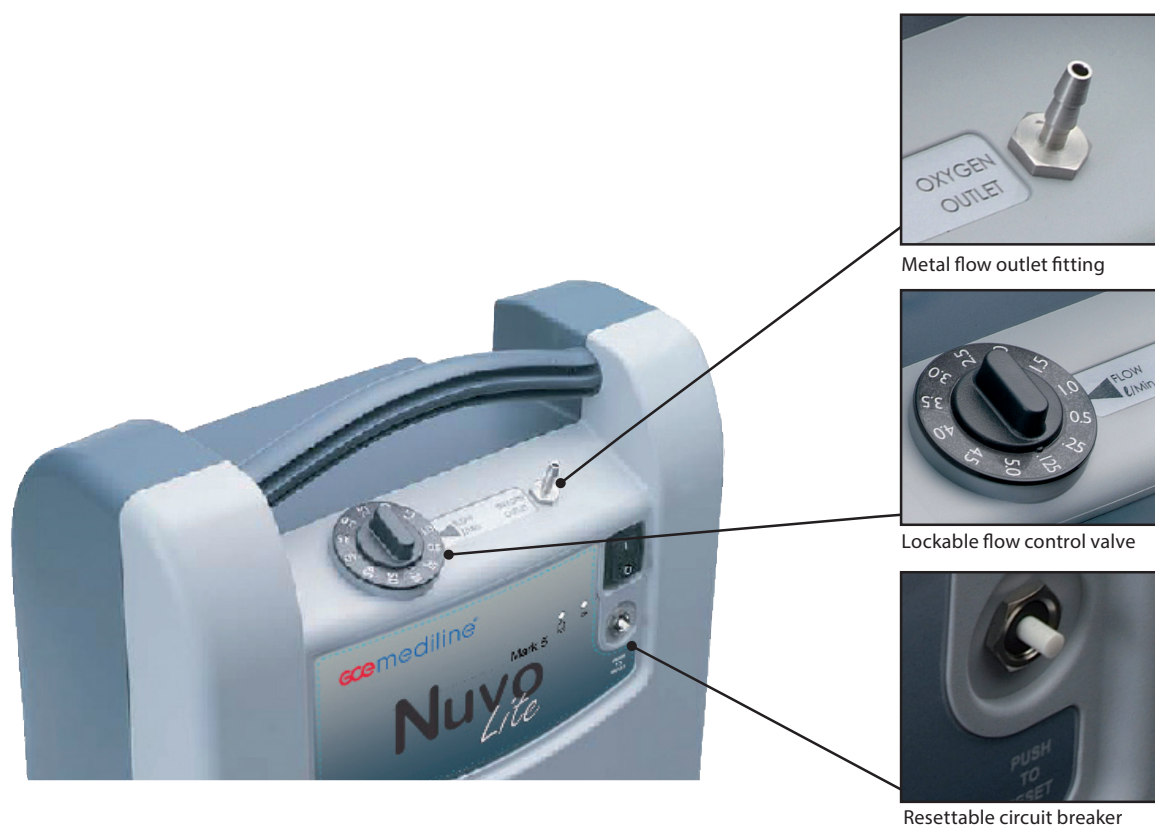

NUVO LITE 5

TECHNICAL DATA

Power supply:	230 V, 50 Hz
Av. power consumption:	300 W
Fuse:	5 A
O ₂ concentration:	at 2 l/min: >90 % at 5 l/min: 90 % (+6,5% - 3%)
Sound level:	40 dBA
Storage temperature:	-20 to +60 °C
Ambient temperature limit:	+5 to +40 °C
Weight:	14,5 kg
Dimensions (BxHxT):	36 × 23 × 58,5 (cm)
Technology:	PSA (pressure swing absorption)
Standard:	ISO 8359, EN 60601-1
Medical class:	IIb
Warranty:	3 years

THE NUVO LITE MARK 5 TECHNOLOGY

Art. Nr.	Description
14111211	Concentrator Nuvo lite Mark 5

ACCESSORIES

Art. Nr.	Description
14111220	Compressor intake filter
14111222	Prefiltering fleece
14090329	Bacteria filter
14090417	Single use bottle
14090510	Cannula with 2.1 m tube
